[endangerment.jpg](#)

This thread provides a little more context. Instead of my previous email where I looked for titles with “greenhouse gas”, this time I did a search on endangerment in the Climate Change web area. It returned the pages listed in the attached image.

In the webcms you can change a web area of a page pretty easily?

Is it just this one page?

Thanks

Andrea, if you put those pages : <https://www.epa.gov/climatechange/endangerment-and-cause-or-contribute-findings-greenhouse-gases-under-section-202a>

Into the searchable collection or a different web area vs inside /climatechange, OEI won't have to figure out a workaround. Can you do that ?

**Subject:** RE: custom 404

Endangerment pages need to stay – so we need to find a way to isolate them

Also, per JP, Clean Power Plan should not get a 404 page, rather should re-direct to the energy independence pages that he says are ready to go.

Thanks ng

**Subject:** RE: custom 404

If we do an Apache based global redirect, everything in the path of these 3 sites will go the same place.

/cleanpowerplan  
/cleanpowerplanttoolbox

/climatechange

We can try to send the other site somewhere else, but that is hard to get right.

Susan, the endangerment is here:

<https://www.epa.gov/climatechange/endangerment-and-cause-or-contribute-findings-greenhouse-gases-under-section-202a>

since it's housed inside /climatechange will that be a hurdle for implementing the custom 404?

**Subject:** custom 404

Sites that this custom 404 page will apply to:

/cleanpowerplan  
/cleanpowerplanttoolbox  
  
/climatechange

Climate site that is **TBD** is the endangerment finding

Climate sites **NOT** affected by this:

<https://www.epa.gov/ghgemissions>  
  
<https://www.epa.gov/ghgreporting>
